Specifications

Model	BL-1
Color	Black/White
Voltage	220V/50~60Hz
Power	2400W
Boiler Capacity	5L
Boiler Material	Stainless Steel
Coffee Output	100Cups/Hour
Button	5
Certification	CCC/CE/CB/Food Grade
Size	520(H)*530(W)*550(L)mm

Egret Single Group Espresso Machine

Microcomputer Detection / User-friendly Buttons / Professional-grade Rotary Pump

SPECIALIZED EXTRACTION CONFIGURATION

Rotary pump

Independent pressure gauge

Custom parameters

Multiple sets of buttons

Side tie rod

Microcomputer

Four-hole nozzle

Coffee brewing head

Coffee boiler

Professional Commercial Grade Rotary Pump

Utilizing a commercial-grade professional rotary pump ensures stable water pressure, enhancing the consistent coffee extraction.

PROFESSIONAL COMMERCIAL ROTARY PUMP

PROVIDES CONSISTENT AND CONTINUOUS WATER PRESSURE, STRONG SUCTION FOR USE WITH BOTTLED WATER, AND MEETS THE SWITCHING NEEDS OF WATER SUPPLY SYSTEMS IN DIFFERENT USAGE ENVIRONMENTS

Bottled Water

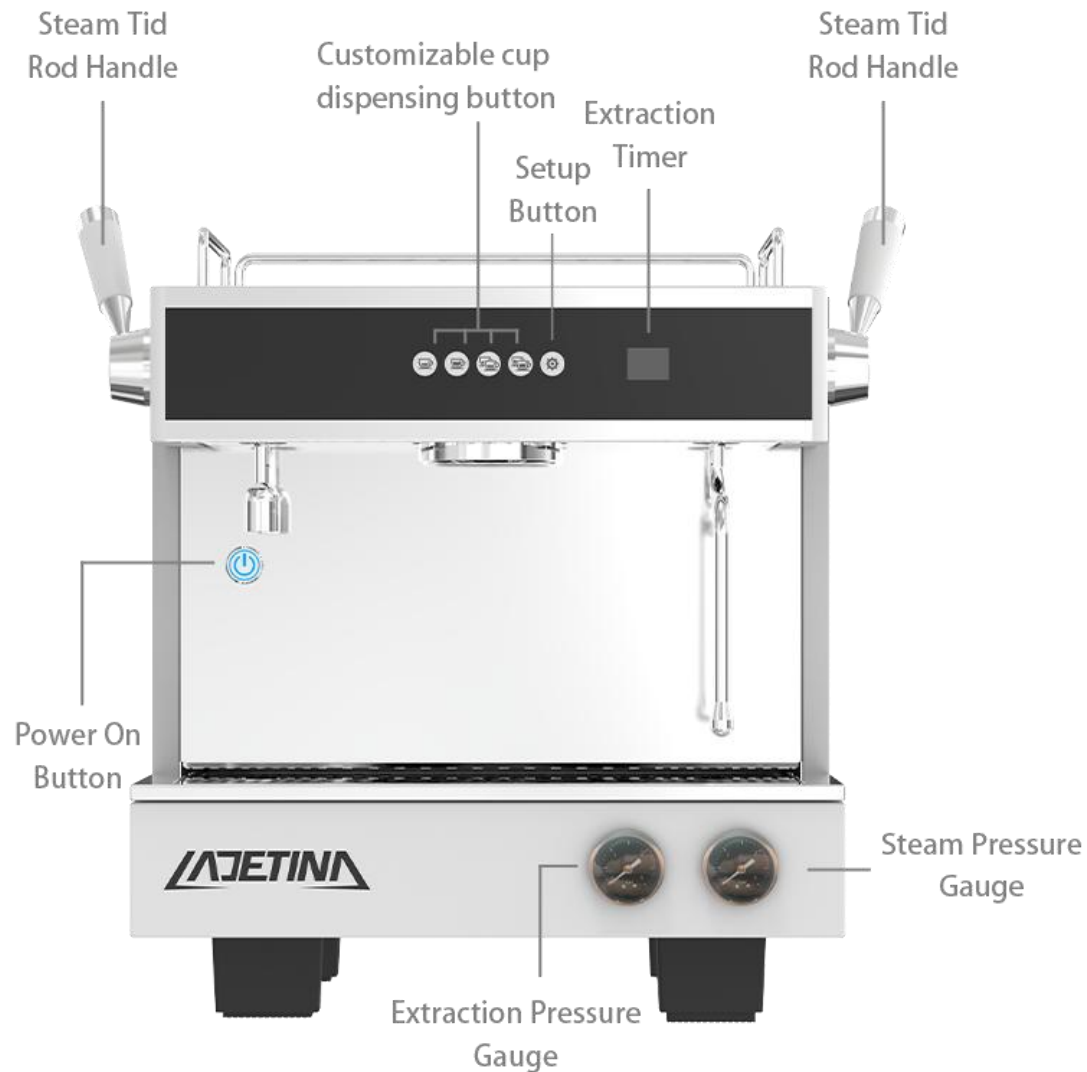

External Purified Water

Independent Extraction/Steam Pressure Gauge

Dual monitoring of steam pressure and water pressure ensures professional coffee extraction under stable pressure.

5 Buttons for Quick Extraction of Various Drinks

- ✓ 5 Buttons
- ✓ 4 Parameter Setup Buttons
- ✓ 1 Hold for Setup Mode Button

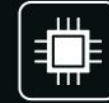

Professional Microcomputer Monitor

Supports water level monitoring, high-temperature monitoring, intelligent dry-burn protection, ensuring safer use of the coffee machine.

Professional Microcomputer Monitor

Multiple protective features including electronic temperature control protection, mechanical high-temperature protection, mechanical high-pressure protection, and water level monitoring

MICRO CONTROL

WATER LEVEL MONITORING

OVERHEAT PROTECTION

INTELLENT ANTI DRY

One Press Power On, Intelligent Startup

Quick intelligent startup,
automatic water replenishment,
automatic heating for added
convenience.
